

THANK YOU

The last year has been an exceptionally busy one for Organic Energy, as we have grown our customer base and Approved Installer network across the UK. Hundreds of homeowners and businesses have now discovered the benefits of our products, and the peace of mind that comes from having a secure, sustainable energy future.

This growth in the business means that Organic Energy are now the third largest distributor of ÖkoFEN wood pellet boilers in Europe, behind only France and Germany.

So on behalf of everyone here at Organic Energy I'd like to thank you personally for your part in our success - we couldn't have done it without you!

Andy Boroughs
Managing Director

MEET JUNE - AND PADDY!

Many of you will have spoken to June Yapp, the friendly and helpful voice on the end of the phone when customers call Organic Energy. She's worked for the company for 2 years now, and doesn't mind admitting that at the time she joined the business she didn't know very much about renewable technology. Now, not only is she something of an expert on the subject, she's the proud owner of her own ÖkoFEN Pellematic boiler – and he's called Paddy!

June, her husband Phil, and 7 year-old son Jacob (who chose the name Paddy), live in a small village on the Welsh borders where there is no mains gas supply.

"We were spending a fortune on LPG bottled gas," explains June, "and

always thought twice about switching the heating on. Since we've had 'Paddy' we've halved what we were spending, the house is a lot warmer and we're not afraid to switch the heating on when we need it. Better still, with the RHI payments we'll be getting for the next 7 years, the system will have paid for itself. Overall the house is a lot more comfortable and we're doing our bit for the environment."

And if more proof were needed about how attached people become to their ÖkoFEN boilers, June lets us into a little secret.

"Paddy lives in the utility room and I talk to him and give him a rub and a polish every day – I'd go as far as to say he's become a part of the family!"

June Yapp, her son Jacob - and Paddy the boiler!

Want to tell us about your boiler and what it's called?

Please e-mail your story and pictures to june@organicenergy.co.uk and we'll include the best in our next Club OE Newsletter.
